WRC Finland 28th July to 31st July [Saturday]

Formerly known as the 1000 Lakes, Neste Oil Rally Finland is one of the most popular events on the WRC calendar. It's also regarded by many people as 'the spiritual home of rally'.

The rally is a fast gravel affair, with high-speed runs along tree-lined tracks peppered with fast, flying 'yumps' that demand absolute, balls-out commitment.

Rally Finland is based in the bustling student town of Jyväskylä, located in the lake district area in the centre of the country. To win here, you need a savvy combination of tactical nous, smooth and efficient technique and flat-out commitment to cope with the high speeds, fast kinks and mammoth jumps that litter the smooth, loose surface stages.

Over the years, the event has been dominated by the Scandinavians. They're used to driving on roads like these since they were knee-high to a grasshopper.

New for 2010

Neste Oil Rally Finland will commemorate its 60th anniversary in 2010 with a brand new city-based Super Special stage in Jyväskylä and a revised itinerary that ends on Saturday night, rather than the more usual Sunday.
